

The screenshot shows a Mac Finder window titled 'Output'. The sidebar on the left, under '个人收藏' (Favorites), lists '下载' (Downloads), 'Developer' (selected), 'Book', 'Study', 'LicenseServer', '桌面' (Desktop), '应用程序' (Applications), '文稿' (Documents), '隔空投送' (AirDrop), 'yigitte', and '[C] Windows 10'. Below this is the '设备' (Devices) section with 'Macintosh HD' and 'Yaritte的MacBo'. The main pane is divided into three columns: '文件夹' (Folders), '文件夹' (Folders), and '其他' (Other). The first '文件夹' column shows 'ai' and 'aII'. The second '文件夹' column shows 'Output' (selected) and '其他' (Other). The '其他' column lists various files: 'trade_bndno_2', 'trade_bndno_4', 'trade_bndno_6', 'trade_bndno_8', 'trade_bndno_10', 'trade_bndno_12', 'trade_dptno_2', 'trade_dptno_4', 'trade_dptno_6', 'trade_dptno_8', 'trade_dptno_10', 'trade_dptno_12', 'trade_new_dptno_2', 'trade_new_dptno_4', 'trade_new_dptno_6', 'trade_new_dptno_8', 'trade_new_dptno_10', 'trade_new_dptno_12', 'trade_new_pluno_2', 'trade_new_pluno_4'. The 'Output' folder is expanded, showing its contents: 'aII.ipynb'.

2 讨论分析

关于pattern数

trade.csv

Support	2	4	8	16	32	64
dptno	76249	1341	415	203	118	78
pluno	5857182	17357	3338	1254	653	396
bndno	4884	465	190	103	70	53

trade_new.csv

Support	2	4	8	16	32	64
dptno	90509	3786	1272	635	398	262
pluno	2540013	41708	11417	5287	2819	1758
bndno	51770	3387	1266	695	423	292

- pattern数 随着 support 增大而减小, 由于 support 表示支持度, 支持度越低, 符合的 pattern数 越多
- 相对于 ai 各个 support 对应的 pattern数 都变大了, 由于将一个用户的多个订单组合, 则各个 item 之间的组合次数也增多了

3 性能比较
